## JOIN US

The Brittle Bone Society wants a world in which the needs of people in the UK and the Republic of Ireland living with Osteogenesis Imperfecta are understood, respected and fully met. We will work towards improving the quality of life for people diagnosed with OI in the UK and the Republic of Ireland, providing advice, signposting and information, providing financial support for wheelchairs and equipment and raising awareness of the condition. We will also support and work with specialist healthcare professionals.

The Brittle Bone Society continues to provide front line assistance when a diagnosis is made; we fund specialist mobility equipment and call for improvements in treatment. We are ambitious in our hopes for more research. We want to help every family find the support they need to help them face the challenges OI can bring.
